

Features:

- Universal AC input / Full range
- Protections:Short circuit/Over load/Over voltage
- Cooling by free air convection
- LED indicator for power on
- 100% full load burn-in test
- Withstand 300VAC surge input for 5 second
- High operating temperature up to $70^\circ\!\!\!\!\mathrm{C}$
- Withstand 5G vibration test
- High efficiency, long life and high reliability
- 3 years warranty

| MODEL | | RD-35A | | RD-35B | | RD-3513 | | | |

| NOTE | Ripple & noise are r Tolerance : includes Line regulation is meaning. Load regulation is meaning. | neters NOT specially mentioned are measured at 230VAC input, rated load and 25°C of ambient temperature. noise are measured at 20MHz of bandwidth by using a 12" twisted pair-wire terminated with a 0.1uf & 47uf parallel capacitor. e: includes set up tolerance, line regulation and load regulation. ulation is measured from low line to high line at rated load. pulation is measured from 0% to 100% rated load. rer supply is considered a component which will be installed into a final equipment. The final equipment must be re-confirmed that it still meets | | | | | | | |
